Career Objective

I am passionate about data science, with a particular interest in Natural Language Processing (NLP). My goal is to solve real-world problems using NLP and web technologies to advancements in this field.

Education

Bachelor of Science in Computer Science and Engineering (BSCSE)

United International University, Bangladesh

Jan 2022 - Present

- Achieved 4th Runner-Up in a university project show for an innovative tech solution.

Work Experience

Undergraduate Teaching Assistant

United International University, Bangladesh

June 2024 – Present

- Teach Object-Oriented Programming (OOP) for Data Science.
- Assist the course instructor with lesson planning, grading, and providing support to students.
- Facilitate lab sessions and provide hands-on guidance for programming assignments.

Projects

Cyber Bully Detection Using NLP

- Developed a machine learning model to detect instances of cyberbullying in social media text.
- Utilized Natural Language Processing (NLP) techniques to analyze and classify text data.

Blogpotro – A Social Media Project using Laravel & Gemini API

- Created a social media platform integrating AI-driven features to enhance user experience.
- Focused on user interaction and content management using Laravel.

Skills

- **Programming Languages:** Python, R, SQL, PHP, JavaScript.
- **Technologies:** Node.js, Laravel, Tailwind, Figma, Kaggle, VSCode.
- **Soft Skills:** Public Speaking, Teamwork, Conflict Management.

Certifications

- Machine Learning by Stanford University
- Git and GitHub by Google
